2. This is the first such request I have had from [REDACTED] As Mr. Amory is interested in our working more closely with that division, all our support for this opening wedge will help the cause. So, good hunting and thanks.

3. Incidentally, your comment to George on transmittal time is of great interest to us. We would appreciate a continuing time check on our dispatches so that if they slow down we can act to correct any delays here.
